

GOMATHI NATCHIAR D

Tirunelveli,Tamilnadu | gomathinatchiar1@gmail.com

EDUCATION:

ST.IGNATIUS CONVENT HIGHER SECONDARY SCHOOL

2018 - 2024

Higher secondary education

ANNA UNIVERSITY REGIONAL CAMPUS TIRUNELVELI

2024-2028

Bachelor of Engineering,Major in
computer science

SKILLS:

- Python
- Javascript
- SQL
- Front-end development
- Object-oriented programming
- C
- Git version control
- Machine learning algorithms
- Deep learning
- Regression library management
- Problem-solving

LANGUAGE:

- English
- Tamil
- Hindi

SUMMARY:

Driven Computer Science student with foundational skills in Python, SQL, JavaScript, HTML, CSS, and Object-Oriented Programming. Focused on Artificial Intelligence, Machine Learning, and Data Analytics to address real-world challenges. Proficient in problem-solving, analytical thinking, and Git version control, with strong teamwork and communication abilities. Eager to leverage emerging technologies in innovative projects.

EXPERIENCE:

FREAKSEARCH AI

- Frontend Developer
- Contributed to the development of an AI-powered fake news detection system using machine learning techniques.
- Designed and developed the frontend interface for news input and prediction display.
- Collaborated on text preprocessing and data handling workflows.
- Used HTML, CSS, JavaScript, and Python to support application development.
- Focused on creating an intuitive and responsive user experience.

CAREVIA – HOSPITAL AND PATIENT MANAGEMENT PLATFORM

- Frontend Developer
- Developed the frontend of a web application connecting hospitals and patients.
- Designed responsive and user-friendly interfaces using HTML, CSS, and JavaScript.
- Created modules for patient registration, appointment booking, and hospital information management.
- Improved usability through structured layouts and accessible navigation.
- Collaborated with team members to ensure seamless integration of frontend components.

CERTIFICATIONS:

- Problem solving basic-Hackkerank
- Python problem solving-sololearn
- Data science and machine learning fundamentals-Guvi HCL
- Introduction to HTML-sololearn

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES:

- Participated in the Microsoft Imagine Cup, gaining experience in innovation, problem-solving, and project development.
- Participated in a Generative AI Hackathon, collaborating with teams to develop AI-driven solutions.
- Participated in the Scaler School of Technology RL Hackathon, exploring reinforcement learning concepts and applications.
- Actively participated in multiple technical symposiums, workshops, and coding events conducted by colleges and universities.
- Won prizes in various inter-college and intra-college technical and non-technical competitions.
- Demonstrated strong teamwork, communication, presentation, and problem-solving skills through competitive events.

ATM SIMULATOR MACHINE:

- Developed a console-based ATM simulation system using JavaFX.
- Implemented core banking operations including balance inquiry, deposit, withdrawal, and transaction validation.
- Applied Object-Oriented Programming (OOP) principles for modular and maintainable code.
- Utilized exception handling and input validation to improve reliability.
- Strengthened understanding of Java programming and software development fundamentals

MACHINE LEARNING MINI PROJECTS

- Built and trained machine learning models on small datasets for classification and prediction tasks.
- Performed data preprocessing, feature engineering, model training, and performance evaluation.
- Explored algorithms such as Linear Regression, Logistic Regression, Decision Trees, and K-Nearest Neighbors.
- Assisted a faculty mentor in a Tamil Manuscript Research project involving AI/ML-based text analysis and digitization support.
- Contributed to data preparation, text processing, and research experimentation activities.
- Gained practical experience in machine learning workflows, data analysis, and research methodologies
